

Company Information

Since 2002, World Nomads has been protecting, connecting and inspiring adventurous and independent travelers by offering specialized travel insurance and safety advice.

Our travel insurance products cover travelers from more than 100 countries. World Nomads focuses on what we believe is important to travelers: emergency medical and evacuation costs, baggage cover, trip cancellation, trip delay and trip interruption costs. We offer cover for more than 150 adventure sports and activities, plus tech and gear. We believe travelers have the responsibility to give back, and through our Footprints program, customers can add a small donation to the price of their policy to help fund a community development project with one of World Nomads' global nonprofit and charity partners.

We are part of a suite of global specialist traveler insurers owned by nib Group, Australia's third-largest provider of travel insurance and a leading global distributor of travel insurance through nib Travel. nib Group also provides health and medical insurance to more than 1.6 million Australian and New Zealand residents and more than 200,000 international students and workers in Australia.
